Journal Scope

Topics covered will deal with the theoretical and practical aspects of health informatics and informatics technology as they relate to all areas of health care.

The electronic Journal of Health Informatics recognises the value of both the academic and practice-based perspectives in Health Informatics and health information technology. Therefore manuscripts are sought from all sectors of these disciplines.

We will focus many issues on a special topic compiled by a guest editor to provide a fairly comprehensive overview of each topic.

Submissions

Submit papers at:
<http://www.ejhi.net>

It is our aim to keep this journal free of charge for both authors and readers. To reduce production costs, authors are therefore kindly asked to carefully follow all author guidelines and use the template provided to prepare their papers.

The electronic Journal of Health Informatics

**An international open access
journal committed to scholarly
excellence and dedicated to the
advancement of Health Informatics
and information technology in
healthcare**

What is eJHI?

eJHI is a truly open access journal - it provides open access both for authors (i.e. no publication fee or page charges) and for readers (i.e. free access to all papers).

This open-access electronic Journal provides a new forum for academic exchange in the field of Health Informatics. It is established primarily for the benefit of the Asia-Pacific region but is also expected to be of interest by extended international audiences.

It is committed to scholarly excellence and is dedicated to the advancement of the Health Informatics discipline and to the use of information, knowledge and communication technologies by all working within the health industry. It has been officially endorsed by the Health Informatics Society of Australia (HISA) and the Australian College of Health Informatics (ACHI).

The copyright of articles is retained by authors. As an open access journal, articles are free to use, with proper attribution, in educational and other non-commercial settings.

Why eJHI?

This initiative is in response to a request from HISA members to have their journal re-established. In addition the waiting time between paper acceptance and print publication for the most sought after refereed journals is extending. The HISA Board together with the Fellows and Members of ACHI were of the view that a freely available electronic journal has the potential for maximum impact, a feature now seen as highly desirable by the Australian Government's Department of Education, Science and Training (DEST) within their new Research Quality Framework (RQF).

Editor-in-Chief

Evelyn JS Hovenga, Central Queensland University, Australia

Managing Editor

Sebastian Garde, Central Queensland University, Australia

Editorial Board

Janette Agg, MIHSR, Monash University, Australia

Mark Barnett, KM Group, Australia

David Bomba, University of Wollongong, Australia

Joanne Callen, Health Information Management Association of Australia (HIMAA), University of Sydney, Australia

Heng-Shuen Chen, National Taiwan University, Taiwan

Ngai Tseung Cheung, Hong Kong Hospital Authority, Hong Kong

Stephen Chu, National e-Health Transition Authority, Australia

Paul Clarke, JamPac Health Informatics Management Consulting, Australia

Enrico Coiera, University of New South Wales, Australia

Moya Conrick, Griffith University, Australia

H. Dominic J. Covvey, Waterloo Institute for Health Informatics Research, Canada

Hsien Ming Goh, Asia Pacific Association for Medical Informatics (APAMI), Malaysia

Heather Grain, La Trobe University, Australia

Andre Greyling, Hong Kong Hospital Authority, Hong Kong

Terry John Hannan, Moi-Indiana University AMPATH project, Australia

Travis Ingram, Royal Perth Hospital, Australia

Michael Richard Kidd, The University of Sydney, Australia

Il Kon Kim, Kyungpook National University, South Korea
Yun Sik NMI Kwak, Kyungpook National Univ Sch Med, South Korea

Trish Leeder, Information Manager, Sydney West Area Health Service, Australia

Michael Legg, University of Wollongong, Australia

Siaw-Teng Liaw, The University of Melbourne, Australia

K C Lun, Nanyang Technological University, Singapore

Anthony Maeder, e-Health Research Centre / CSIRO ICT Centre, Australia

Alvin de Borja Marcelo, University of the Philippines Manila, Philippines

Carolyn McGregor, University of Western Sydney, Australia

David More, More & Associates Pty Ltd, Australia

Tom Morgan, Health Informatics Society of Australia (HISA), Australia

Vincent McCauley, Medical Software Industry Association (Australia), HL7 Australia, Central Queensland University, McCauley Software Pty Ltd, Australia

Christine O'Keefe, CSIRO Mathematical and Information Sciences, Australia

Robert Michael Ribbons, Peninsula Health, Australia

David Rowlands, Chair, Standards Australia IT-014 Health Informatics Committee, Australia

Jeffrey Soar, CAAIR - USQ, Australia

Sanjay Prakash Sood, C-DAC School of Advanced Computing, Mauritius

Kannan Subramaniam, Health Informatics New Zealand (HINZ), New Zealand

Klaus Veil, HL7 Australia, HL7 Global, Australia

Jim Warren, University of Auckland, New Zealand

Sue Whetton, University of Tasmania, Department of Rural Health, Australia

Chun-Por Wong, Hong Kong Society of Medical Informatics, Hong Kong

Ling Zhu, China Medical Informatics Association, China
